CHAMPAIGN COUNTY
African American Heritage Trail

SKELTON PARK PROJECT

The Experience Champaign-Urbana Foundation, Champaign Park District, and City of Champaign with support from the Rotary Club of Champaign, are transforming Skelton Park into a state-of-the-art park as part of the Champaign County African American Heritage Trail.

The park will be redesigned to honor the legacy of Champaign County's prominent and influential African American musicians, and will include:

- Community plaza
- Performance space
- Seating wall
- Interactive musical instruments
- Pathways
- Play areas
- Lighting
- Sculpture designed by Preston Jackson

Be part of the Heritage Trail! Your brick can pave the way for residents and visitors to enjoy the transformed Skelton Park. Your donated brick can be inscribed with a message dedicated to someone special, to thank a person who made an impact in your life, to make a lasting impression with your name, or to leave an encouraging message for future generations. The bricks (available in two sizes) will be placed on the new park pathway on either side of the entry walkway to ensure the greatest visibility. Bricks will be installed periodically while supplies last.
